

Exercise 1 - Variables

In a new console application, create variables for the following pieces of data, assign values to them, and write them all out to the console. Make sure you choose the data type that makes the most sense.

Data	Data	Data	Data
First Name	Last Name	Company	Street Address
City	Phone Number	Is Manager?	Num Years at Company
Salary	Height in Inches	Order Number	Product Number
Order Category	Product Name	Quantity	Discount Percentage
On Sale?	Item Price
